SOFTWARE DEVELOPER

Software Developer with over three years of experience in Full-Stack Development, specializing in JavaScript, PHP, and MySQL. Passionate about tackling complex challenges and continuously expanding my technical expertise. Proficient in designing, developing, and optimizing scalable web applications, with a strong focus on performance, security, and user experience. Experienced in leveraging cloud-based technologies, particularly AWS, to enhance server scalability, reliability, and cost efficiency. Adept at collaborating with cross-functional teams to deliver innovative solutions that drive business growth. Always eager to learn new technologies and stay up to date with industry best practices.

PROFESSIONAL EXPERIENCE

RACE Services

March 2021 - Present

Software Developer

- Collaborated closely with an Agile product team, leveraging JIRA to streamline development workflows and enhance application features.
- Containerized the application using Docker, significantly reducing setup time for development and improving deployment efficiency.
- Utilized AWS services for scalable infrastructure, security enhancements, and efficient server management, optimizing performance and reliability.
- Developed robust backend functionality using PHP and JavaScript, ensuring seamless data processing and API integrations.
- Managed and optimized databases using MySQL Workbench, ensuring efficient data storage, retrieval, and integrity.
- Implemented secure password management practices with Keeper to enhance security protocols across the development environment.

EDUCATION & CERTIFICATIONS

Bachelor of Information Technology

July 2021

LaTrobe University

Linux For PHP Developers

October 2024

LinkedIn Learning

DevOps With AWS

October 2024

SKILLS

Full-Stack Development

- HTML, CSS, JavaScript, PHP
- MySQL, Redis

Cloud Development

- S3, EC2, Route53, SNS
- Load Balancing and Auto Scaling Groups
- Relational Database Service (RDS)

DevOps

- Application containerize (Docker)
- Version Control (Git)
- CI/CD (Github Actions)

Other

- Linux (WSL)
- Password Management (Keeper)
- IoT
